

Dear Product Inventor,

We evaluate ideas/products from inventors on an ongoing basis. Due to the growing number of requests, we have put some procedures and guidelines in place for you to follow when submitting your product ideas to our company. We require that you complete these forms for all products regardless of the stage your product is at.

In order for us to review your submission, you must print and sign the **Release for Product Submission** and type out a **Product Submission Form** (please follow the example format provided and do not submit multiple products in one submission. You must type out a separate Product Submission Form for each product).

Do not send a sample of your product unless a request for the sample has been made from our company. Please note that samples will not be returned.

Thank you for considering GDC-GAMEDEVCO LTD.
